# THE READING

From [http://www.breakingnewsenglish.com/1308/130828-prince\\_george-1.html](http://www.breakingnewsenglish.com/1308/130828-prince_george-1.html)

Britain's royal family showed photos of Prince George on Sunday. They are different because a royal photographer didn't take them. George's grandfather took them. They are from the private family album of Prince William and Kate. One photo is of one-month-old George with his parents. They are standing under a tree. Another is with the family dog. Professional photographers usually take royal baby photos. Prince George's photos break this tradition.

George will be king after his grandfather and his father die. Prince William enjoys every minute of being a father. He wants his son to sleep all night. He joked that he wanted to go to work so he could get some sleep. William is a hands-on father. He changes George's diapers. Kate does most of the work. George reminds William of himself when he was a baby. He said George wriggles around a lot and doesn't want to sleep much. William said this is a problem.
